

Dear Teachers, School Staff, Students and Parents,

The Orange County Health Care Agency wants everyone to feel safe and secure as schools reopen.

Getting a COVID-19 test is important for any student or school staff member who has COVID-19 symptoms.

If you cannot get a test through your doctor or you meet the public health priorities below, register to get tested FREE.

In addition to people who have symptoms, others who are a priority to get tested include:

- People who have come in close contact with an infected person
- Essential workers including: Teachers and any other school staff
- First responders
- Grocery store workers
- People who live or work in high-density housing

COVID-19 Testing is available **FREE** to people who live in Orange County through two drive-thru Super Sites - one in Anaheim and one in Costa Mesa. An appointment is required.

In addition to the Super Sites, there are multiple other test locations through the OC COVID-19 Testing Network. For more information on testing options call **(800) 564-8448**.

To make an appointment go to **[ochealthinfo.com/covidtest](https://ochealthinfo.com/covidtest)**.
