

VACCINE DEVELOPMENT

Facebook/Instagram:

Scientists were able to deliver us vaccines quickly thanks to advancements in tech and science, and decades of research. While COVID-19's new, scientists have been studying coronaviruses for the past 50+ years, giving them a big head start in developing the vaccines we're using today. It's okay to have questions. It's alright for it to take whatever it takes for you to be ready. Visit [CovidVaccineFacts.com](https://www.covidvaccinefacts.com) for more COVID-19 facts and updates on your eligibility. Let's get you there. Let's #GetToImmunity #ThisIsOurShot #OCCOVID19
