Host a COVID-19 Vaccine Clinic

Help your community become safer and healthier by hosting a mobile vaccination clinic for family, friends, colleagues or neighbors.

Rally your community!
Leverage your position as a community leader to encourage and promote vaccination efforts. Complete a simple intake form and we’ll be in touch. A minimum of 50 appointments is preferred in order to coordinate a clinic for your group/location.

Spread the word!
Promote your vaccination event through your communication tools, including social media. Once your event is confirmed, a dedicated Community Liaison will provide promotional materials already translated in English, Spanish and Vietnamese that you can use to spread the word. Additional languages are available upon request and can be coordinated with your Community Liaison. The HCA, as your partner, will also promote the event on our social media channels.

Be a community hero!
Visit Othena.com or scan the QR code above to sign up your community for a mobile vaccination event that will offer free COVID-19 vaccinations for everyone interested who is 12 years of age and older.

Learn more about the vaccine platforms available by scanning the QR codes below with your smartphone.

- Johnson & Johnson - is approved for those ages 18 and older.
- Moderna - is approved for those ages 18 and older.
- Pfizer - is approved for those ages 12 and older.
